

# NUSHAWN WILLIAMS

## HIV POSITIVE

- Drug Dealer
- Car Thief
- Armed Robber

Passed the virus on to dozens of school girls, most of them White.

### Warning!

According to the U.S. Centers for Disease Control and Prevention, Blacks age 13 to 24 account for 63 percent of all new AIDS cases.

**Who is most to blame for this tragedy?** Nushawn Williams, for doing what is in his nature to do? The schools for not handing out enough condoms? The legislature for passing a law protecting the privacy of AIDS carriers? The homosexuals for lobbying for this law?

**No.** It is the news and entertainment media for not informing the public that Black males are 14 times more likely to be AIDS carriers than heterosexual White males, for promoting a multiracial society, and for encouraging White girls to engage in interracial sex.
